Dedicated to my family for their never ending support

Pre-Prints

Contents of Volume I

An analytic-hierarchy-process based simulation model for implementation and analysis of computer-aided systems <i>Zeki Ayağ</i>	1
An integrated approach to evaluating conceptual design alternatives in a new product development environment <i>Zeki Ayağ</i>	22
A fuzzy AHP-based simulation approach to concept evaluation in a NPD environment <i>Zeki Ayağ</i>	49
A fuzzy AHP approach to evaluating machine tool alternatives <i>Zeki Ayağ and Rifat Gürcan Özdemir</i>	65
An intelligent approach to ERP software selection through fuzzy ANP <i>Zeki Ayağ and Rifat Gürcan Özdemir</i>	78
A hybrid approach to machine tool selection through AHP and simulation <i>Zeki Ayağ</i>	104

Author Biography

Zeki AYAG is currently working as an Associate Professor at Industrial Engineering Department of KADIR HAS UNIVERSITY. He is also Department Chair of Industrial Engineering Department, and Director of Graduate School of Science and Engineering after have been serving as an Assistant Professor between 2005 and 2008 at the same university. He holds an undergraduate degree in Industrial Engineering Department of Faculty of Business Administration, a Master's in Engineering Management Program of Industrial Engineering, and a Ph.D. degree in Industrial Engineering Program of Industrial Engineering at ISTANBUL TECHNICAL UNIVERSITY (I.T.U). Before joining to KADIR HAS UNIVERSITY, he worked as an Assistant Professor in ISTANBUL KULTUR UNIVERSITY for almost 2 years. In addition to his academic experience, he has national and international industrial experience such as; CAD Engineer in MAGNA INTERNATIONAL, INC., Cam-Slide Mfg. (CANADA), Engineering Designer in MOLD-MASTERS LTD. (CANADA), Construction Department Chief in MAKINA TAKIM ENDUSTRISI A.S., and Quality Assurance Engineer in PIMAS A.S. He also worked as a full-time Research and Teaching Assistant in the IE Department at I.T.U. for 4 years. He taught many courses, such as Operations Research I and II, Systems Simulation, Multiple-Criteria Decision Making, Facility Design and Plant Layout, Integrated Enterprise Systems, Computer Integrated Manufacturing (CIM) and so on. His research interests include Multiple-Criteria Decision Making (MCDM), Analytic Hierarchy/Network Process (AHP/ANP), Fuzzy Logic, Simulation of Manufacturing Systems, New Product Development (NPD). He has published many articles in leading periodical journals indexed by SCI® and SCI-Expanded®, such as International Journal of Production Research, Journal of Intelligent Manufacturing, IIE Transactions, Journal of Engineering Design and Journal of Intelligent and Fuzzy Systems and so on. He is also an active referee for the leading journals such as International Journal of Production Research and Computer and Industrial Engineering, International Journal of Approximate Reasoning, Information Sciences, Journal of Engineering Design and so on, and for conferences such as International Conference on Information Systems (ICIS 2005). He has also given many seminars on his interest fields with numerous publications in conference and congress proceedings. He is a licensed Professional Engineer (P. Eng.) from both Society of Professional Engineers in Ontario (PEO) in CANADA, and Chamber of Mechanical Engineers of Turkey (TMMOB). He is Senior Member of Institute of Industrial Engineers (IIE). He has also various memberships such as Operational Research Society, TURKEY (YAD), Turkish Industrial Engineers Group (TURK IE), Society of Fuzzy Systems, TURKEY (BUSIDE), International Society on Multiple Criteria Decision Making (MCDM), International Association of Engineers (IAENG), IAENG Society of Industrial Engineering, IAENG Society of Operations Research, IAENG Society of Artificial Intelligence, IAENG Society of Information System Engineering and so on. He is also listed in various editions of Who is Who in Engineering in the World, and Leading Engineers of the World. He is also Associate Editor in Advances in Fuzzy Systems, Editorial Board Member of International Journal of Production Research, Associate Editor of Journal of Intelligent Manufacturing, and in different capacities for other journals.
