APPLICATIONS IN INDUSTRIAL ENGINEERING

(SELECTED WORKS)

PRE-PRINTS: VOLUME II

by

Zeki Ayağ

Department of Industrial Engineering,
Faculty of Engineering and Natural Sciences,
Kadir Has University,
Kadir Has Campus, 34083 Cibali, Fatih, İstanbul, TURKEY.

Personal URL: <http://www.zekiayag.org>

Dedicated to my family for their never ending support

Pre-Prints

Contents of Volume II

Concept evaluation through multiple-criteria decision making methods: An evaluation and new approaches <i>Zeki Ayağ</i>	1
Evaluating simulation software alternatives through ANP <i>Zeki Ayağ</i>	9
Alpha-cut fuzzy analytic network process based approach to evaluate simulation software packages <i>Zeki Ayağ and Ahmet Yücekaya</i>	16
A location-routing model for regional blood banks <i>Funda Samanlıoğlu, Zeki Ayağ, Ahmet Yücekaya, Defne Elibol, İlker Depe, Rifat Gürcan Özdemir, and Ceyda Davarcı</i>	24
Cost and SO ₂ minimizing coal resource selection for power plants <i>Ahmet Yücekaya and Zeki Ayağ</i>	31
A fuzzy TOPSIS Approach for nuclear power plant site selection <i>Funda Samanlıoğlu, Zeki Ayağ, and Ahmet Yücekaya</i>	35
Intelligent approach to simulation software evaluation <i>Zeki Ayağ, Funda Samanlıoğlu, and Ahmet Yücekaya</i>	39
Option pricing for electricity commodity in Turkish Power Market <i>Ahmet Yücekaya, Zeki Ayağ, and Funda Samanlıoğlu</i>	45
CAD software selection through fuzzy AHP <i>Zeki Ayağ and Rifat Gürcan Özdemir</i>	52
Compressed air energy storage systems: Current, future and operational analysis <i>Ahmet Yücekaya, Funda Samanlıoğlu, and Zeki Ayağ</i>	61
A network model for location-routing decisions of a logistics company <i>Funda Samanlıoğlu, Ahmet Yücekaya, and Zeki Ayağ</i>	69
An intelligent approach to CAM software selection <i>Zeki Ayağ</i>	75
A fuzzy AHP-based approach to employee performance evaluation <i>Zeki Ayağ and Rifat Gürcan Özdemir</i>	82
An intelligent approach to computer-aided design software evaluation <i>Zeki Ayağ</i>	88

Selection of sub-contractor for cutting operation in textile industry using fuzzy TOPSIS <i>Mehmet Durak, Rifat Gürcan Özdemir, Filiz Faki, and Zeki Ayağ</i>	93
QFD approach to determine supply chain management strategies in automotive sector <i>Zeki Ayağ</i>	101
Quality function deployment approach to evaluate supply chain strategies in Turkish automotive industry <i>Zeki Ayağ</i>	105

Biography

Zeki AYAGÇ is currently working as an Associate Professor at Industrial Engineering Department of KADIR HAS UNIVERSITY. He is also Department Chair of Industrial Engineering Department, and Director of Graduate School of Science and Engineering after have been serving as an Assistant Professor between 2005 and 2008 at the same university. He holds an undergraduate degree in Industrial Engineering Department of Faculty of Business Administration, a Master's in Engineering Management Program of Industrial Engineering, and a Ph.D. degree in Industrial Engineering Program of Industrial Engineering at ISTANBUL TECHNICAL UNIVERSITY (I.T.U). Before joining to KADIR HAS UNIVERSITY, he worked as an Assistant Professor in ISTANBUL KULTUR UNIVERSITY for almost 2 years. In addition to his academic experience, he has national and international industrial experience such as; CAD Engineer in MAGNA INTERNATIONAL, INC., Cam-Slide Mfg. (CANADA), Engineering Designer in MOLD-MASTERS LTD. (CANADA), Construction Department Chief in MAKINA TAKIM ENDUSTRISI A.S., and Quality Assurance Engineer in PIMAS A.S. He also worked as a full-time Research and Teaching Assistant in the IE Department at I.T.U. for 4 years. He taught many courses, such as Operations Research I and II, Systems Simulation, Multiple-Criteria Decision Making, Facility Design and Plant Layout, Integrated Enterprise Systems, Computer Integrated Manufacturing (CIM) and so on. His research interests include Multiple-Criteria Decision Making (MCDM), Analytic Hierarchy/Network Process (AHP/ANP), Fuzzy Logic, Simulation of Manufacturing Systems, New Product Development (NPD). He has published many articles in leading periodical journals indexed by SCI® and SCI-Expanded®, such as International Journal of Production Research, Journal of Intelligent Manufacturing, IIE Transactions, Journal of Engineering Design and Journal of Intelligent and Fuzzy Systems and so on. He is also an active referee for the leading journals such as International Journal of Production Research and Computer and Industrial Engineering, International Journal of Approximate Reasoning, Information Sciences, Journal of Engineering Design and so on, and for conferences such as International Conference on Information Systems (ICIS 2005). He has also given many seminars on his interest fields with numerous publications in conference and congress proceedings. He is a licensed Professional Engineer (P. Eng.) from both Society of Professional Engineers in Ontario (PEO) in CANADA, and Chamber of Mechanical Engineers of Turkey (TMMOB). He is Senior Member of Institute of Industrial Engineers (IIE). He has also various memberships such as Operational Research Society, TURKEY (YAD), Turkish Industrial Engineers Group (TURK IE), Society of Fuzzy Systems, TURKEY (BUSIDE), International Society on Multiple Criteria Decision Making (MCDM), International Association of Engineers (IAENG), IAENG Society of Industrial Engineering, IAENG Society of Operations Research, IAENG Society of Artificial Intelligence, IAENG Society of Information System Engineering and so on. He is also listed in various editions of Who is Who in Engineering in the World, and Leading Engineers of the World. He is also Associate Editor in Advances in Fuzzy Systems, Editorial Board Member of International Journal of Production Research, Associate Editor of Journal of Intelligent Manufacturing, and in different capacities for other journals.
